

**PRESS RELEASE**

For immediate release - May 19, 2015

## **Offshore service company launches new brand as one-stop shop for the energy industry**

The new Allrig brand concept was launched during this year's Offshore Technology Conference (OTC) held in Houston, Texas and around the world on May 5<sup>th</sup> with events in Vicksburg (MS), Houma (LA), the Netherlands, Dubai and Singapore.

Allrig unites the oil field service expertise of US based independents Vicksburg Marine Inc, Southern Technology & Services and Benchmark Instrumentation with the North Sea pedigree of Netherlands based Willteco and the shipyard know-how of Singapore based Willtech Asia.

As a single company, Allrig provides offshore drilling contractors a global one-stop shop. Allrig Services include full quayside rig upgrades, jacking systems and crane inspections, drilling equipment (mud pump, draw-works, top drive & BOP) refurbishments, derrick & rope access inspections and competence assured academy training.

"The industry is resetting its cost base right now and clients are looking for partners who can truly add value to their bottom line – Allrig is that company", said Mark Hannigan CEO of Allrig.

### **Turnkey solutions and product development**

Allrig is present in every major drilling region with class approved replacement parts available ex stock and competency assured technicians resident in each territory. Allrig meets the highest accreditation and safety standards and offers training through its global Knowledge Academy.

Through our Totaldock™ shipyard partnerships in each region, we can offer vessel owners quayside turnkey solutions – everything from a small unplanned pit stop to a full five year special periodic survey (SPS).

Allrig has also organically invested in a strong operational presence in the Middle East and a world class engineering team. Our engineering team has developed innovative, efficiency enhancing and cost saving products like the Cleardrop Cover™ and a crane SCR upgrade kit.

## **Same high quality service**

Customers can expect the same personal touch, high quality workmanship and dedicated service they've come to expect from our heritage businesses with all of our management teams and technicians remaining in place. Now, we can offer more: a global presence, a broader range of products and services and stronger backing for further investment.

With decades of combined operational experience, Allrig can solve virtually any problem on a drilling rig and help keep our clients on day rate.
